Education

Wakeland High School, High School Diploma – Frisco, TX Aug 2023 – May 2027

- Unweighted GPA: 4.0; 18 AP classes completed/planned
- Rank: Top 5% of class; Expected graduation: 2027

Boston University, Research in Science & Engineering (BU RISE) – Boston, MA June 2026 – Aug 2026

- Matched with mentor Dr. Wenchao Li, Department of Electrical and Computer Engineering for summer internship program

Frisco ISD Career and Technical Education Center, Project Lead The Way – Frisco, TX Aug 2023 – May 2027

- Frisco ISD Career and Technical Education Center PLTW Nationally Distinguished Engineering Program
- Courses: Introduction to Engineering Design (Gr. 9), Principles of Engineering Design (Gr. 10), Digital Electronics (Gr. 11), Engineering Design and Development (Gr. 12)
- Engineering online portfolio: aakhaleed.com/pltw-engineering

Honors & Awards

- OralVision: Conrad Challenge Innovator Award; Diamond Challenge Semifinalist (Gr. 11)
- FIRST Robotics Competition (FRC) State Championship Winner (Gr. 11)
- FIRST Tech Challenge (FTC) 5A UIL State Championship Bronze Medalist (Gr. 11)
- FTC FIRST Leadership Award Semifinalist (Gr. 11)
- FRC FIRST Leadership Award Semifinalist (Gr. 11)
- CollegeBoard AP Scholar with Distinction (Gr. 10)
- CollegeBoard National Recognition and School Recognition Awards (Gr. 10)
- Member of National Honor Society (NHS), Wakeland High School (Gr. 11–12)

Projects

OralVision (Oral Disease Detector) — Conrad Challenge Innovator Award; Diamond Challenge Semifinalist Oct 2025 – present

- Designed oral disease detection system using HIPAA-compliant federated learning with TensorFlow Federated, enabling distributed model training without sharing patient data
- Patent application in progress with United States Patent and Trademark Office (USPTO)

WatchFall (Senior Fall Monitor Device) — Samsung Solve for Tomorrow Sept 2025 – present

- Selected as one of two teams to represent school district in Samsung Solve for Tomorrow competition
- Designed fall-detection device using Raspberry Pi Pico with on-device TensorFlow Lite inference
- Developed lightweight ML model for real-time motion tracking and fall detection with buzzer alert system

Community Service

Tutoring Program Coordinator, Ma'ruf Dallas Refugee Organization – Dallas, TX Sept 2023 – present

- Lead Math and English tutoring for 30+ refugee elementary and middle school children over three years
- Developed differentiated curriculum for student groups based on their specific needs
- Created bespoke robotics curriculum for limited English proficiency students and hosted monthly robotics sessions for students

Sunday School Teacher Assistant, Islamic Center of Frisco – Frisco, TX Aug 2024 – present

- Taught 20+ elementary students in religious studies and helped keep them on task and engaged
- Assisted Primary Instructor with curriculum implementation, including grading and reviewing assignments

Robotics Camp Volunteer, Muhsen – Plano, TX

July 2025 – Aug 2025

- Acquired special needs sensitivity training to work with special needs students
- Taught 10+ students in robotics build and programming while providing support to other volunteers

Volunteer, Frisco Family Services – Frisco, TX

July 2025 – Aug 2025

- Sorted and shelved donations for Frisco Family Market, which raises funds for underserved local families
- Sorted and stocked Food Pantry, which also serves underserved local families

Extracurricular Activities

Technical Advisor, ITKAN Robotics (FIRST Robotics Team) – Plano, TX

Aug 2025 – present

- Led programming team to 1st place wins at Space City #1 (32 teams), Farmersville (31 teams), and State Championship (90 teams)
- Undefeated 53-0 record during autonomous against Texas teams; ranked 1st in the World as of April 2026
- Ranked 5th in the World, 1st in Texas during first week of competition season
- Developed self-paced robotics programming curriculum and training website used by 30+ FRC and FTC students and over 2000 impressions across 7 countries (mantik.netlify.app)

Software Lead,

Dec 2024 – July 2025

- Provided technical leadership on the organization of software team projects; educated and trained new programming team members; maintained the team's FRC and FTC codebases
- FRC robot GitHub codebase and documentation: aakhaled.com/first/reefscape

Founder and President, Wakeland Robotics Club, Wakeland High School – Frisco, TX

Aug 2024 – present

- Founded the Wakeland Robotics Club, growing membership from 0 to 50+ students in the first year
- Bronze medalist at FTC UIL 5A State Championship in team's rookie year
- Developed mission statement, recruited teacher sponsor and members, and presented team vision, schedule, and activities to school administration
- Manage club operations including curriculum design, calendar management, and budget management

Vice President, Mu Alpha Theta Math Honor Society, Wakeland High School – Frisco, TX

Aug 2024 – present

- Designed and implemented school Math Lab Program and coordinated peer tutoring, attaining over 20% member participation
- Organized annual middle school math competition with 100+ participants, 3 participating schools, and 35+ volunteers to promote STEM to middle school students

Co-Founder and President, Muslim Student Association, Wakeland High School – Frisco, TX

Aug 2024 – present

- Developed mission statement, recruited teacher sponsor and members, and presented activities to school administration
- Coordinated with school staff to establish a prayer room for weekly prayers
- Created various media for promoting the club and prayer room, including social media posts

Work Experience

Math and Reading Instructor, Gideon Math and Reading Center – Frisco, TX

June 2024 – present

- Teach students from kindergarten to 11th grade in math, reading, and grammar, including Algebra and Geometry
- Analyze student performance data to identify learning gaps and develop personalized plans

Math and Reading Teaching Assistant, – Frisco, TX

Jan 2022 – May 2024

- Graded students' work from kindergarten to 11th grade, including Algebra and Geometry
- Aided students in completing their assignments appropriate to their age and skill level
- Increased grading efficiency by 50%

Skills

Engineering: Fusion 360 (Autodesk), Onshape; NI Multisim, KiCAD, EasyEDA; soldering**Software:** Python, Java, JavaScript, HTML, Jekyll, CSS, Google Workspace, R, Google Sheets, MS Office
